Suppose a newspaper man, every  
time he hears of a man criticising him  
or his paper in public, should retaliate  
by holding up to the public gaze the  
faults and shortcomings of said fault-  
finder, what would be the result?  
The editor may not know it all, but  
he does not live in a community long  
without knowing a dence of a sight  
more than he publishes.—Ex.

lation of his millions by buying furs.  
Mr. Burd saw some of the old ledgers
